

The six questions in the Graduate Student Survey with free text responses were analyzed and coded under 27 themes. This overview presents the code frequencies by question and the top five codes by discipline. A shortened version of the code definitions is appended at the end of this document.

Q3. *Considering your answers above, what are the three biggest challenges in your graduate/professional studies? Please list challenges that relate to your studies even if they don't relate directly to the library.*

Academic Challenges

Note: Respondents had the opportunity to provide three challenges (first, second and third). We coded their responses, tallied the code frequencies, weighted them and then obtained percentages. Not all respondents provided all three challenges, thus the minimum number of responses for this question is 1635 (n) and maximum 2253.

Q8. *Considering your teaching experience at Cornell as a graduate/professional student this academic year, what would you say are your three biggest teaching challenges? List what comes to mind whether or not they relate to the library.*

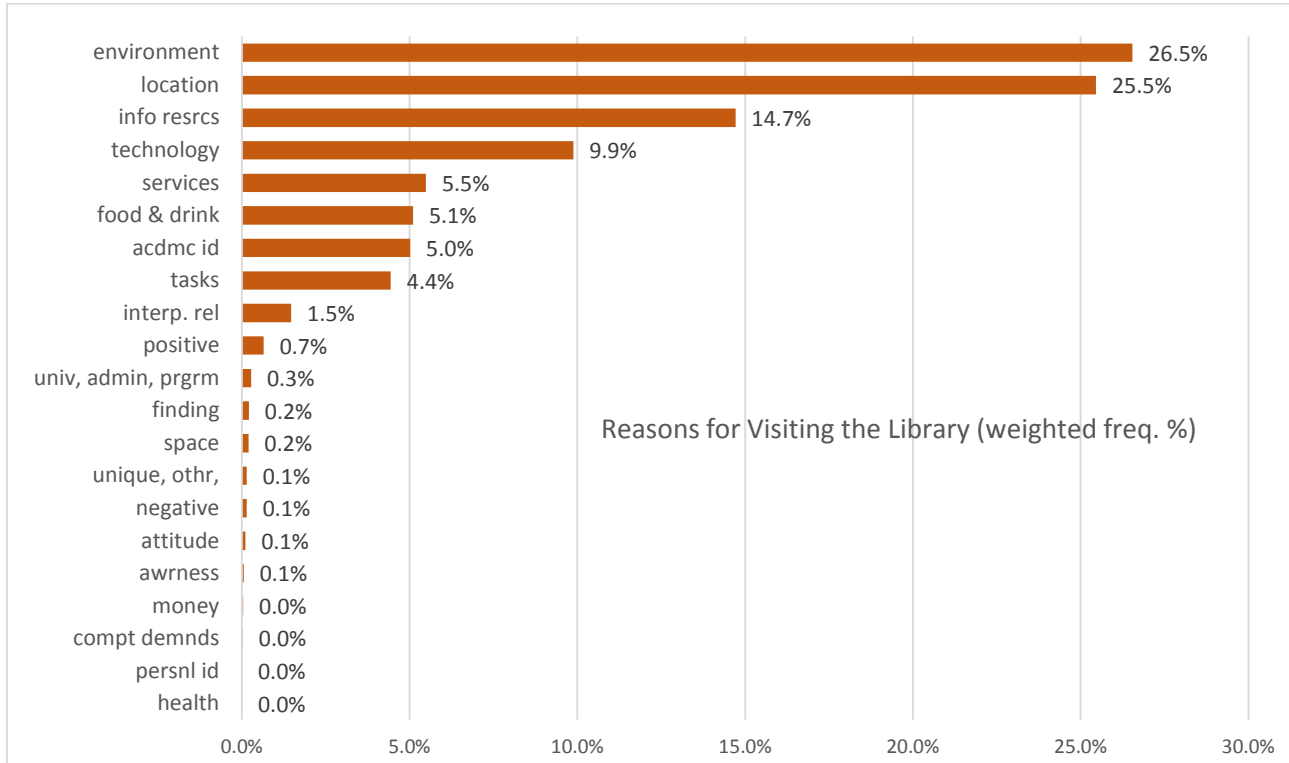

Note: Respondents had the opportunity to provide three teaching challenges (first, second and third). We coded their responses, tallied the code frequencies, weighted them and then obtained percentages. Not all respondents provided all three teaching challenges, thus the minimum number of responses for this question is 272 (n) and the maximum 403.

Q19. Thinking about the (name of library unit selected in prior question, Q18), please tell us the top three reasons you choose to spend time in that library?

Note: Respondents had the opportunity to provide three reasons for choosing to spend time in the library (first, second and third). We coded their responses, tallied the code frequencies, weighted them and then obtained percentages. Not all respondents provided all three reasons, thus the minimum number of responses for this question is 1517 (n) and the maximum 2066.

1. *ACADEMIC IDENTITY*
 - Students bring up their academic credentials or subject or field of interest as an ‘identity’ that explains their behavior or preferences (or routine). E.g., “I’m a Vet student, this is my library.”
 - Includes statements where students identify themselves as abroad or off-campus.
2. *ATTITUDE (ABOUT SELF)*
 - Self-proclaimed statements about their own attitudes, such as: shyness, confidence (or lack of it), intellectual abilities, motivation, engagement, procrastination, focus, writer’s block, etc.
3. *AWARENESS (about library or library services)*
 - Lack of awareness about a service or collection that is already provided by the library, but which respondent is unaware. Includes statements about desiring better promotion on services
4. *COMPETING DEMANDS*
 - Balancing multiple demands; statements about struggling to keep a good work-life balance or taking care of themselves and their family. Time management; workload, scheduling problems.
5. *ENVIRONMENT (ambiance)*
 - Statements that indicate the choice of space is about the quality of the space, such as atmosphere or setting: noise, light, views, temperature, air, cleanliness, etc. Also includes furniture characteristics and carrels, plus intangibles such as mood or quality of the space (e.g., inspirational space, good napping or sleeping space). Includes comments about removing or banning undergraduates from space, or mentions of disruptive behavior by undergraduates.
 - Statements about construction, choice of finishes in construction, noise levels, talking, etc.
6. *FINDING, DISCOVERY, MANAGING INFORMATION*
 - Finding sources online or in person in stacks, discovery, conducting searches. Accessing materials, including from off-campus (abroad, downtown, doing fieldwork, distance learners); including use of Passkey (or other tools developed for facilitating this task).
 - Information overload, overwhelmed by choice, managing and organizing information. Information literacy
 - Includes managing information they create (not their personal life)
7. *FOOD & DRINK*
 - Choice of space or building precisely because of the food available (café, machine, Manndible, Collegetown, etc.,).
 - Within library spaces, include statements about the rules that allow food or people to leave their belongings to get food, etc.
8. *FUTURE*
 - Future concerns regarding marketable skills/ career future/ job search; preparation for a job; for alumni access to collections code with “future and info resources”. Entrepreneurship/ creating a business.

- Statements about life as an alum.

9. *HEALTH*

- Mental and physical health issues: emotional concerns such as anxiety, depression, or references about how the Ithaca weather may affect them (too dark, etc.)
- physical concerns, including: references to not eating healthy; wanting to exercise to keep healthy; not performing well because they are not sleeping.

10. *INFORMATION RESOURCES*

- Collections, databases, textbooks, course reserves and in any format (print, e, audio, images, etc)
- CUL resource and non-CU resource availability, dispersion and scarcity.
- Includes materials on the subject matter of their interest/needs

11. *INTERPERSONAL RELATIONS*

- Community (or lack of it - isolation), peers, connecting with friends and/ or peers &/or working with others.
- Networking, meeting people for current research, jobs/career or for social reasons.
- Collaboration in a lab, as co-authors, as co-TAs, supervision of others, in teams (e.g., I work more than other TAs).
- Relationships with advisors and faculty (positive or negative); Mentorship, guidance (or lack of it)

12. *LOCATION (proximity, convenience)*

- Statements that indicate that the choice of space was because of its convenient location: close to home, bus line, classes, advisor, grad office, etc.
- Includes choice of library to pick up books delivered (ILL, BD, other delivery).

13. *MONEY (personal and academic finances)*

- Mentions about money, whether they are about student loans, cost of living, research funds or funding for graduate school, for books.
- Funding / Grants (writing & finding research money)

14. *NEGATIVE*

- Explicitly disparaging or negative comments about the Library and/or the University.

15. *PEDAGOGY*

- Pedagogy, teaching students & managing students; Grading, evaluating students; Motivating, helping and inspiring students.
- Creating & delivering course content and structure, class pacing; Public speaking

16. *PERSONAL IDENTITY*

- Students identify themselves as foreign, international or non-native English speakers. Statements that suggest their identity (whatever that may be), comes into play in their selection of library, academic life or other behavior.
- Diversity – statements about race, racism, sexism, diversity (positive or negative)
- Language and cultural background similarities & differences

17. *PID (IDENTIFIABLE INFORMATION)*

- Personally identifiable ideas, concepts, fields of study, college departments, or names (students, faculty or library staff).

18. *POSITIVE*

- compliments or praise for the Library and/or for the university (includes praise for staff).

19. *QUESTION (?)*

- *Use this code when you're not sure what code to assign to the text.*

20. *SCHOLARSHIP (conducting their academic work)*

- Research design, methods, analysis, developing a topic; Mastering their field; learning new/difficult material; skill development
- Keeping up to date; keeping on top of hard classes, know what course to choose;
- all topics required, high expectations,
- Writing & writing skills; critical thinking skills; Memorization, studying, classwork/homework (for their own subject, not for teaching)
- Publishing /scholarly communication, open access
- Meaningful impact

21. *SERVICES*

- Policies such as loan periods, borrowing, recall, fees,
- Services such as book delivery, BD, ILL, document delivery (circ stuff)
- Public services such as reference, consultations, workshops, instruction, liaisons work
- Events provided or hosted by the library, book talks, exhibits, etc.
- Include comments about library staff or statements that people choose the location because of staff or that they want staff to enforce certain rules (e.g., quiet space).
- Include statements about library hours, such as, open earlier, stay open later, etc.; include hours of library instruction, workshops, etc.
- May include non-library (i.e., university services). If that is the case use “services” and “university” codes together.

22. *SPACE*

- Mentions of library or university space or a building.

- Includes comments about needs, desires or ideas for space; The need for study rooms, meeting rooms, group study, etc.
- Individual library units get coded as space.

23. *STUDENT SKILLS AND BEHAVIORS*

- Student skills & characteristics, including language, varying topic/subject knowledge background
- Student engagement, motivation, apathy, distraction, over-commitment, focus on grades
- Expectations and demands on instructor
- Plagiarism and academic integrity

24. *TASKS (activities, purpose)*

- Choice of space is because students find it conducive to engage in particular activities or tasks, such as completing their homework.

25. *TECHNOLOGY*

- Statements about technology, including hardware, software, lab equipment, wifi, internet, etc, even when they are unrelated to the library.
- Includes learning to use such technology or overcoming obstacles in their usage
- IT Support/ Software support
- Printing, printers, poster-printing, etc.
- Includes mentions of outlets and phone chargers, etc.

26. *UNIQUE, OTHER, UNCLEAR*

- Concepts that do not fit in other categories; eg., safety about walking home, distance between campus and residence.

27. *UNIVERSITY, ADMINISTRATIVE ISSUES, PROGRAM DESIGN*

- Statements about the university structure, administration or other bureaucratic issues that go beyond the library and impact the student in some way, such as class size, classroom assignment, technology setup, blackboard problems.
- Includes structure or requirements of their academic program, dynamics of their school or college or department.
- Awareness about university services (or lack of awareness of that) goes here

Things that we decided not to code for:

- NO, nothing, not sure, haven't thought about it; can't think of anything, etc.
- Survey comments (positive or negative)
- No special codes for library units.
